WEB DEVELOPMENT

LAB DIGITAL ASSIGNMENT – I

NAME : NITHISH G

REG NO : 19BCS0012

COURSE : WEB-DEVELOPMENT

DATE : 2/09/2021

1. Create a page aboutme.html that describes you. Include information such as:

i) Your name in the top of the page in large text and your address in smaller text

ii) A description of you in <= 2 sentences. Emphasize important word(s) in bold.

iii) A list of classes you are taking right now with a simple description of each with interesting subjects in marvellous colours.

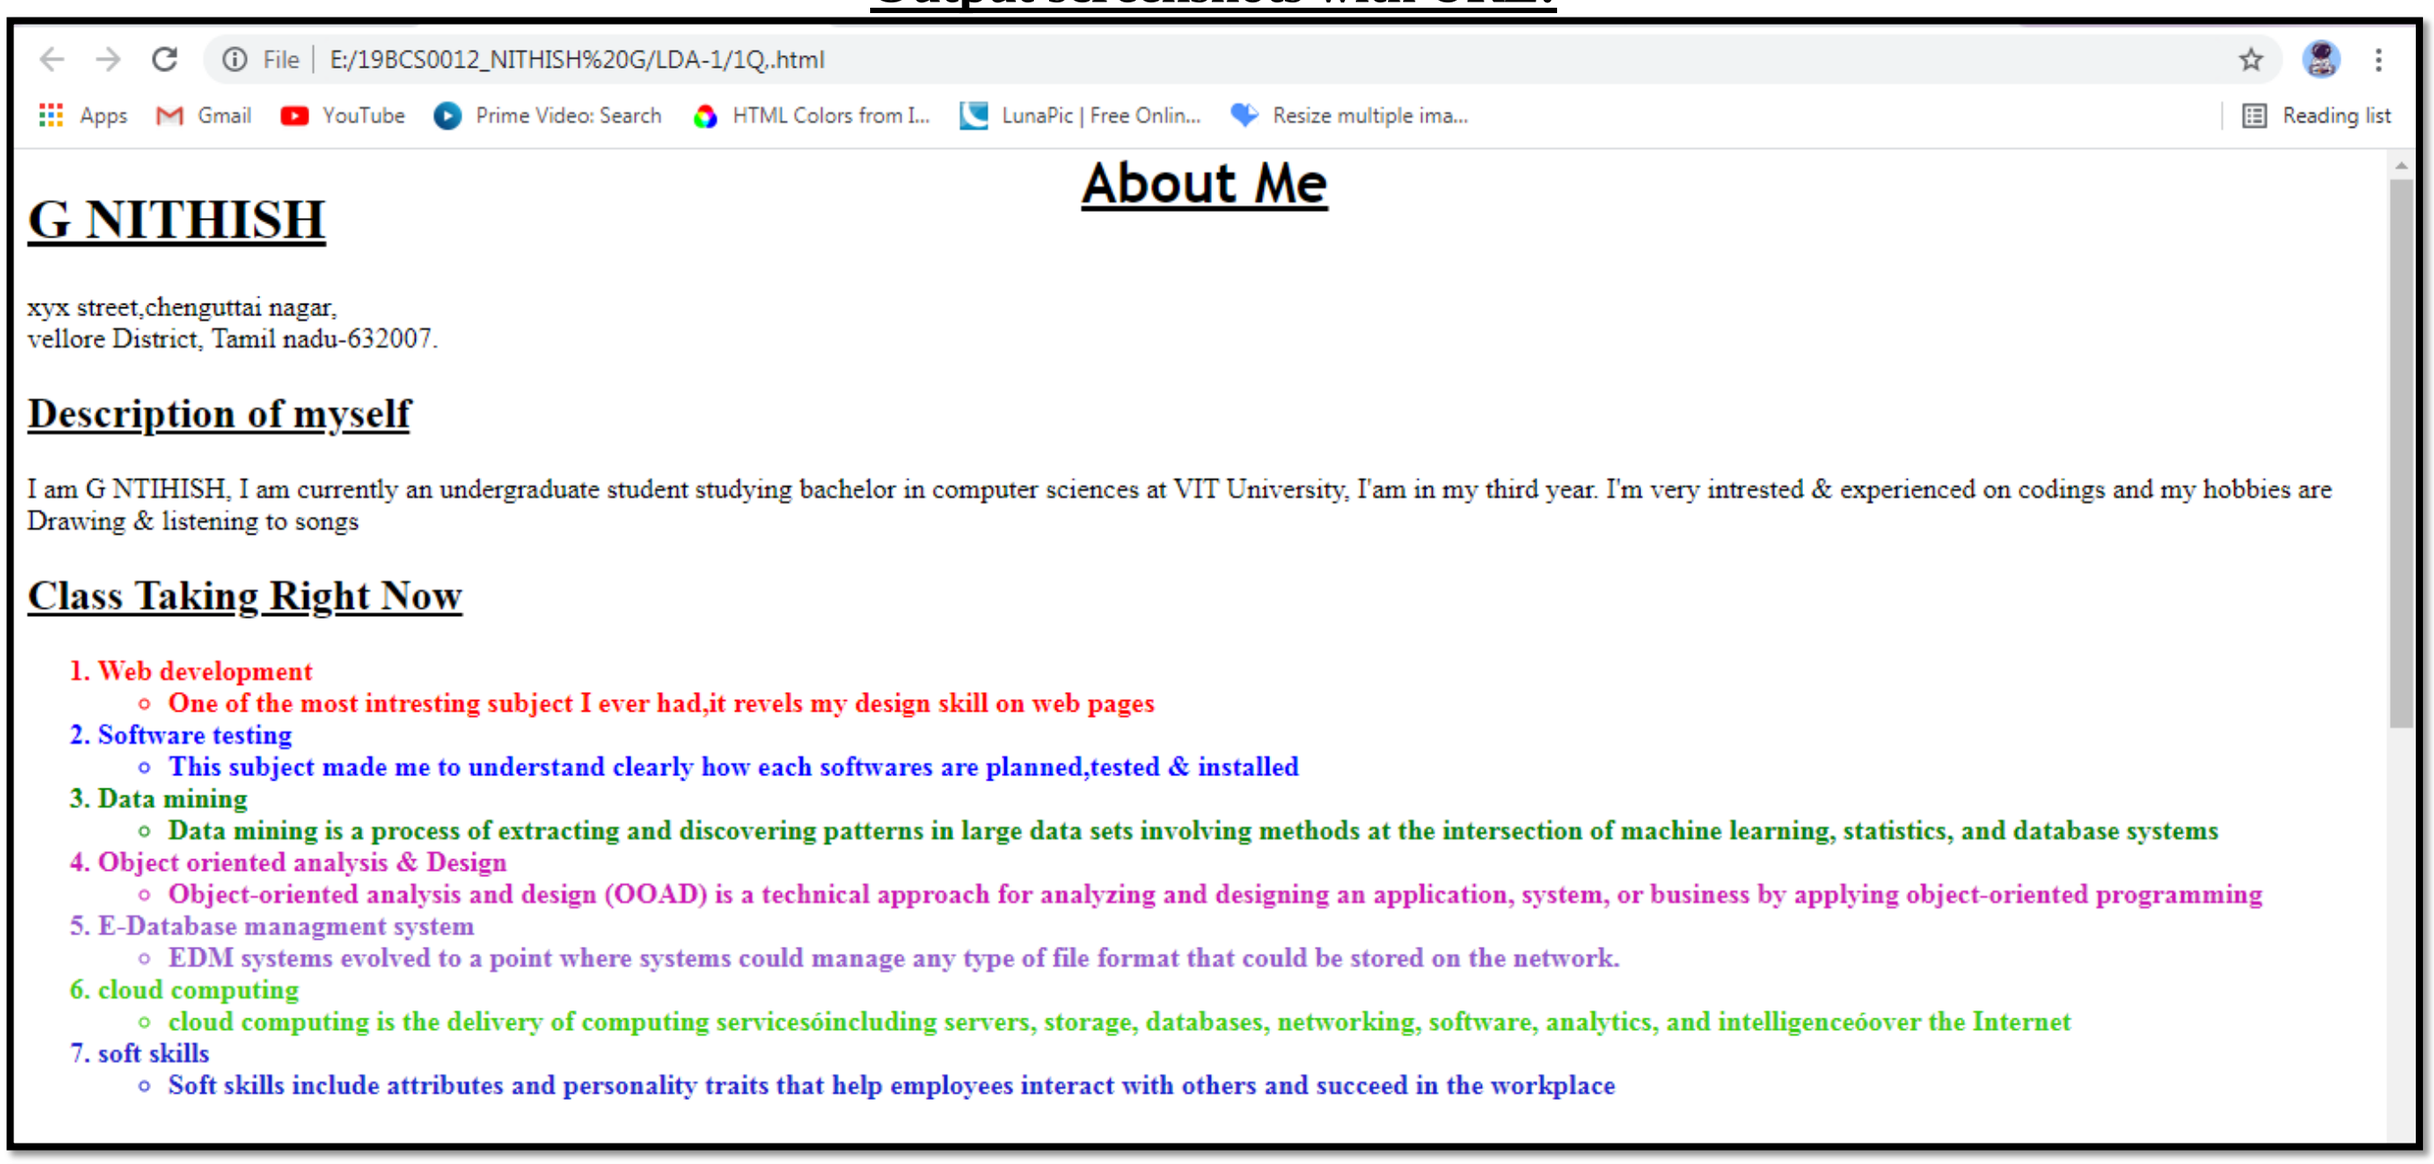
iv) Your 3 favourite movies, books, or TV shows, in order. Make at least one link to an interesting site about that TV show/movie/book

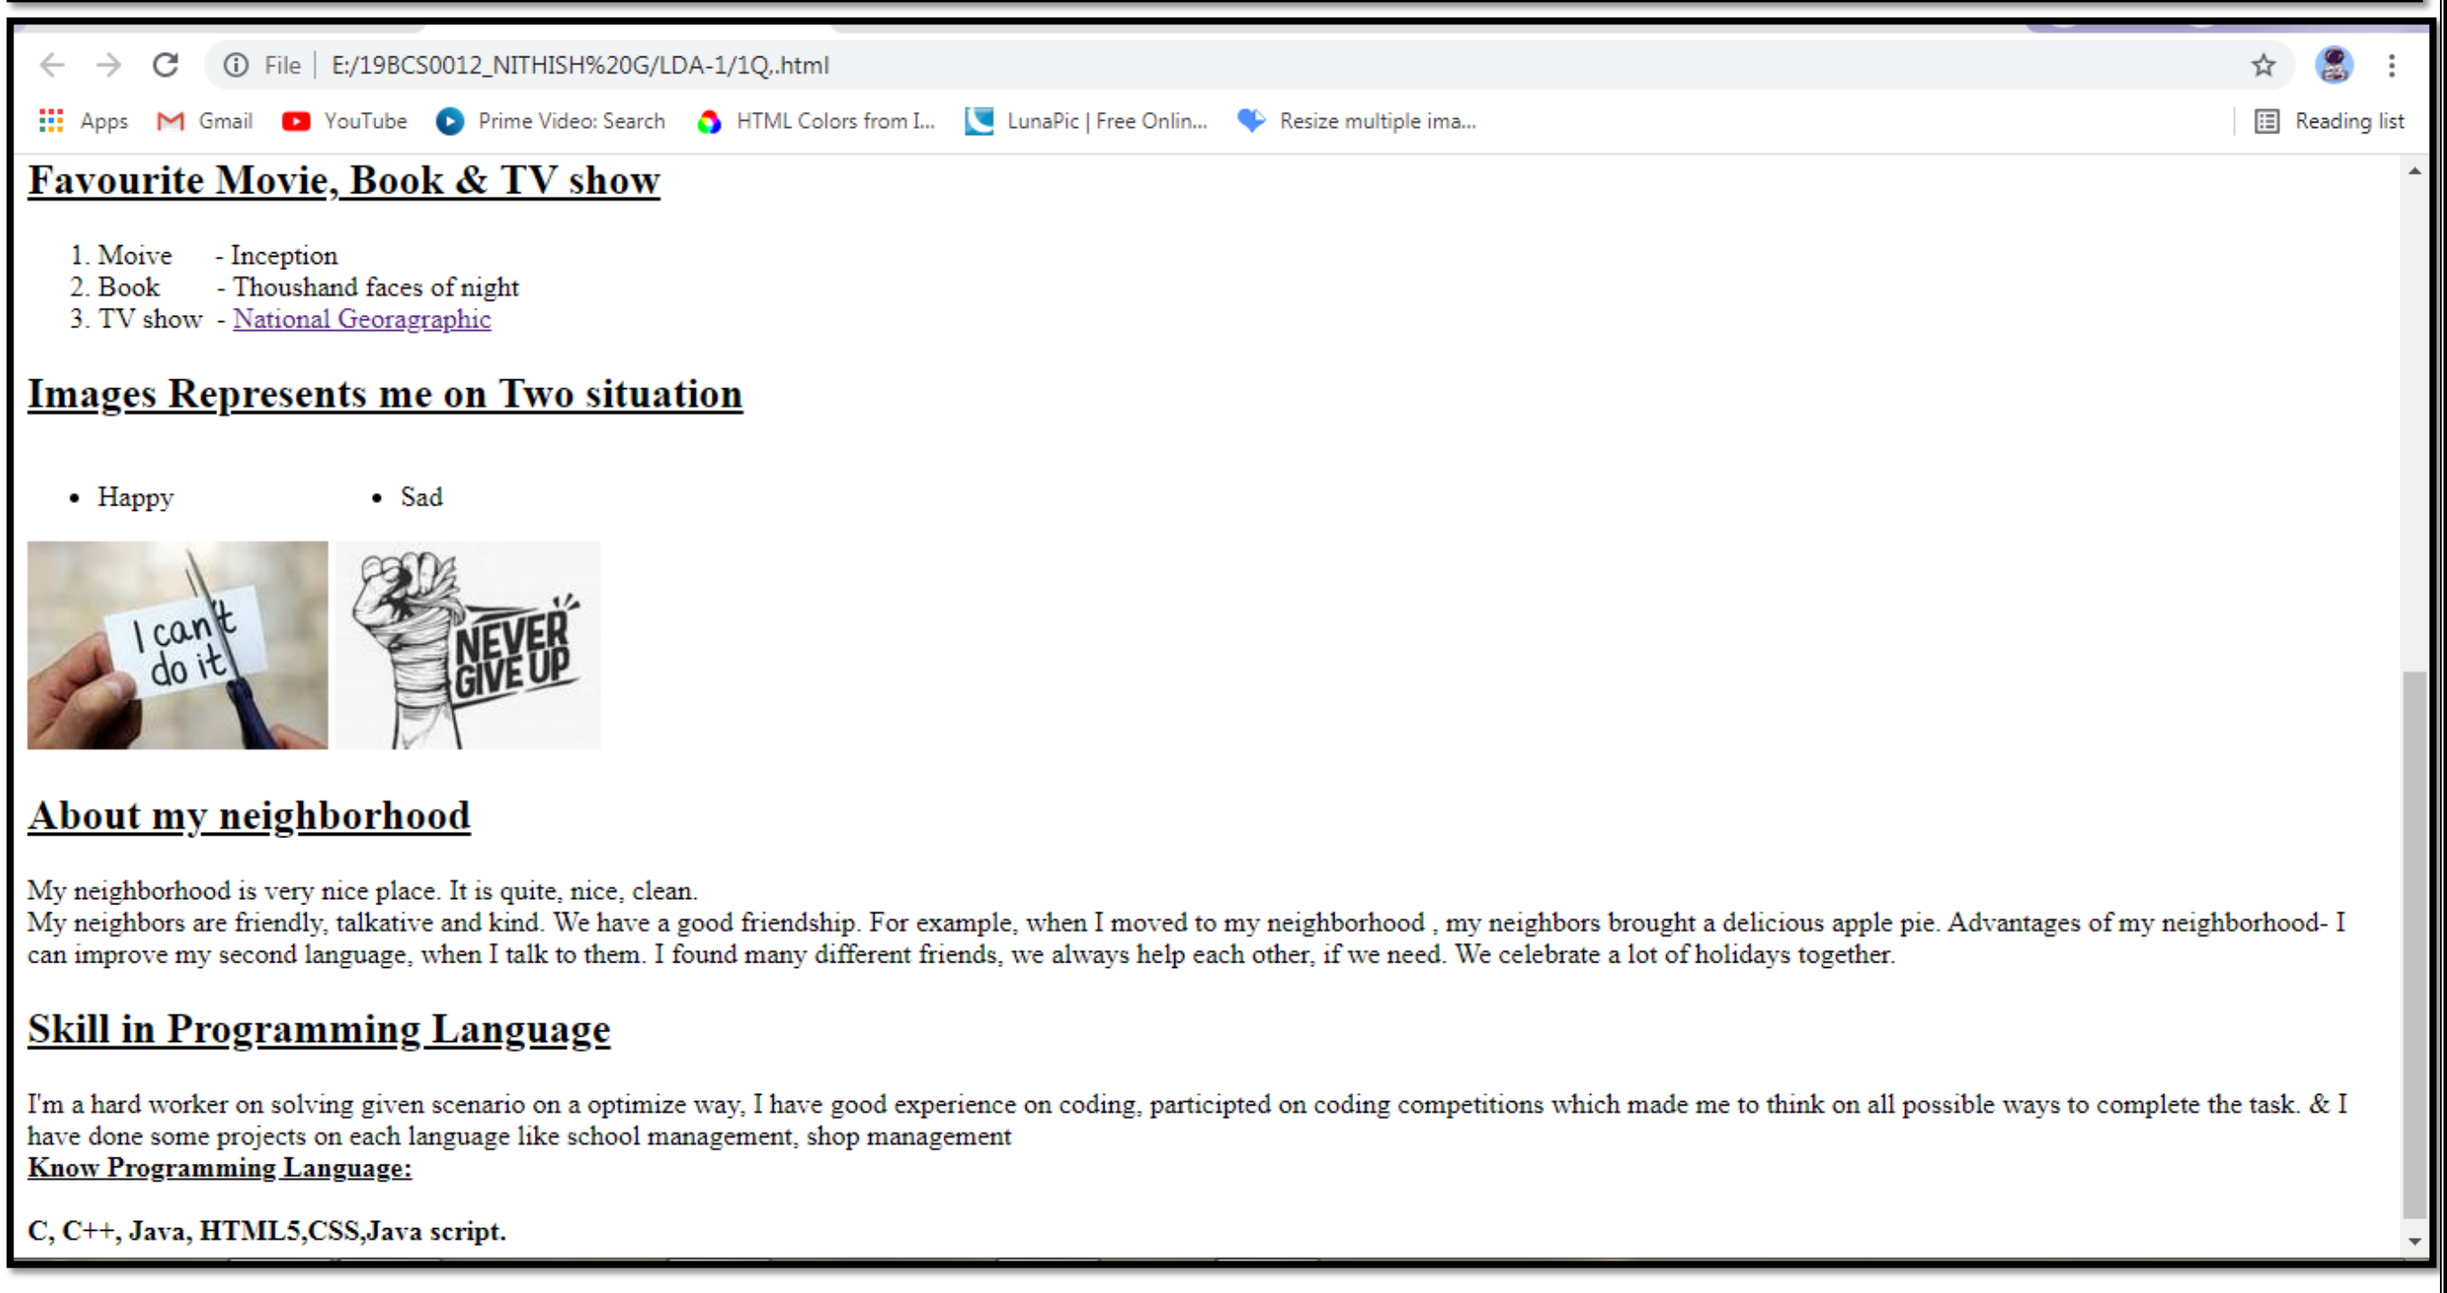
v) Two images that represent you when you're happy and sad.

vi) Something about one of your neighbours (people sitting next to you, make it interesting as well.

vii) Describe your skill level in programming languages

Output screenshots with URL:





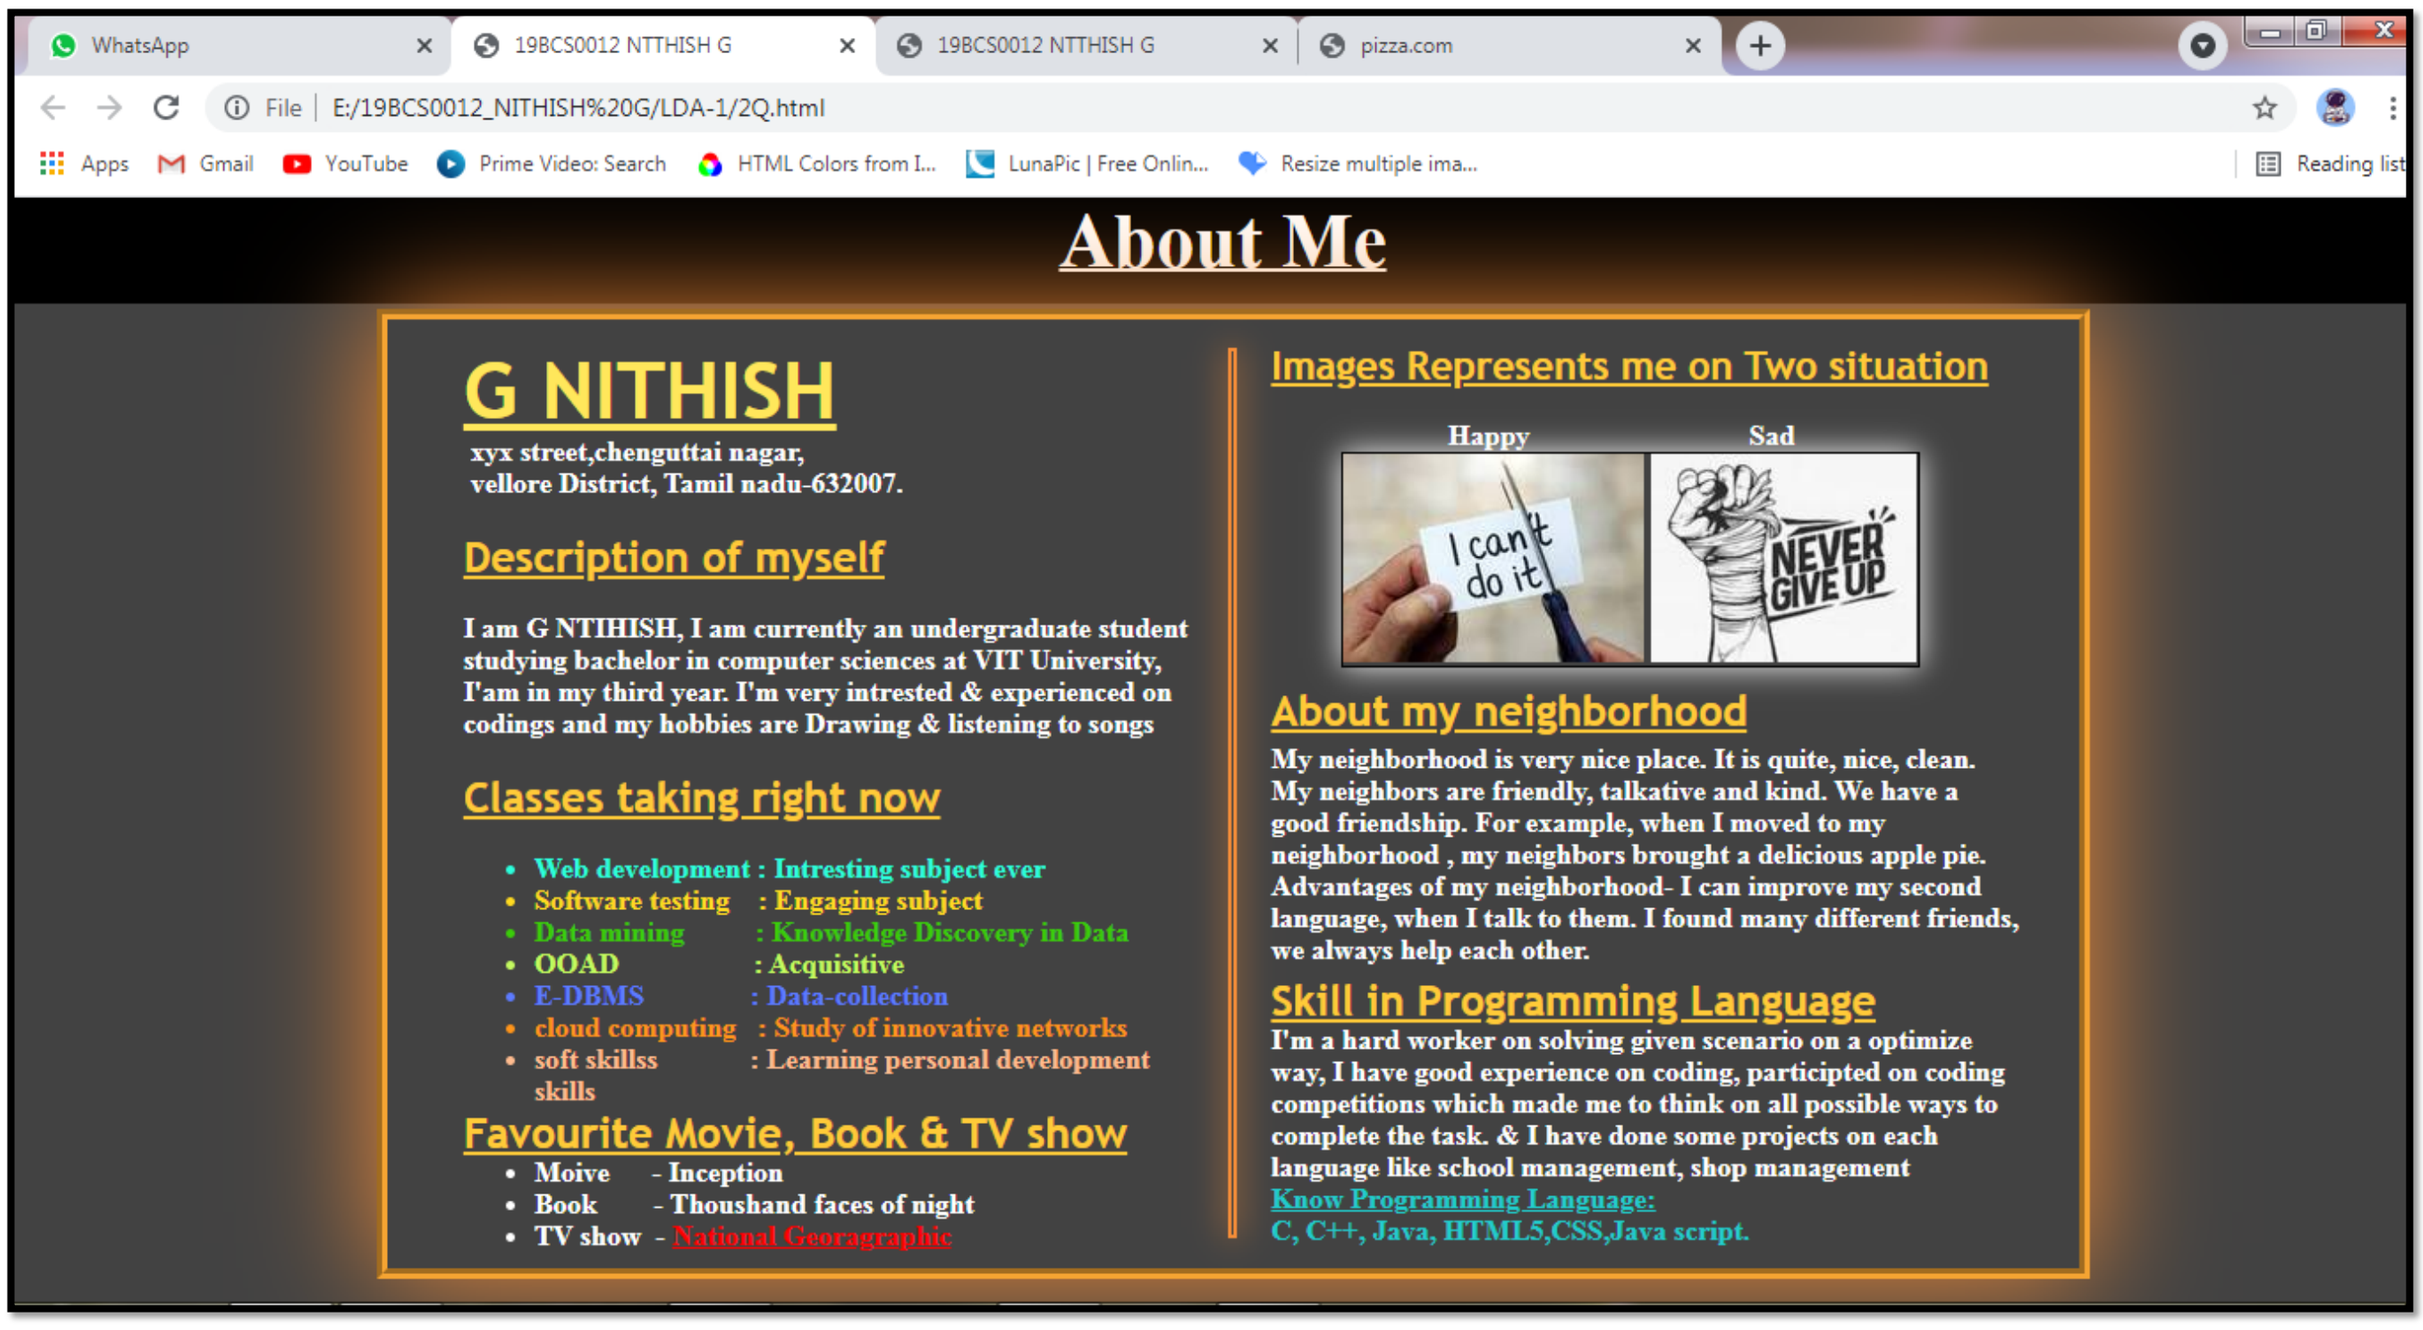
2. Create a stylesheet named styleme.css to improve the appearance of your About Me page.

i) Change the color of at least two elements

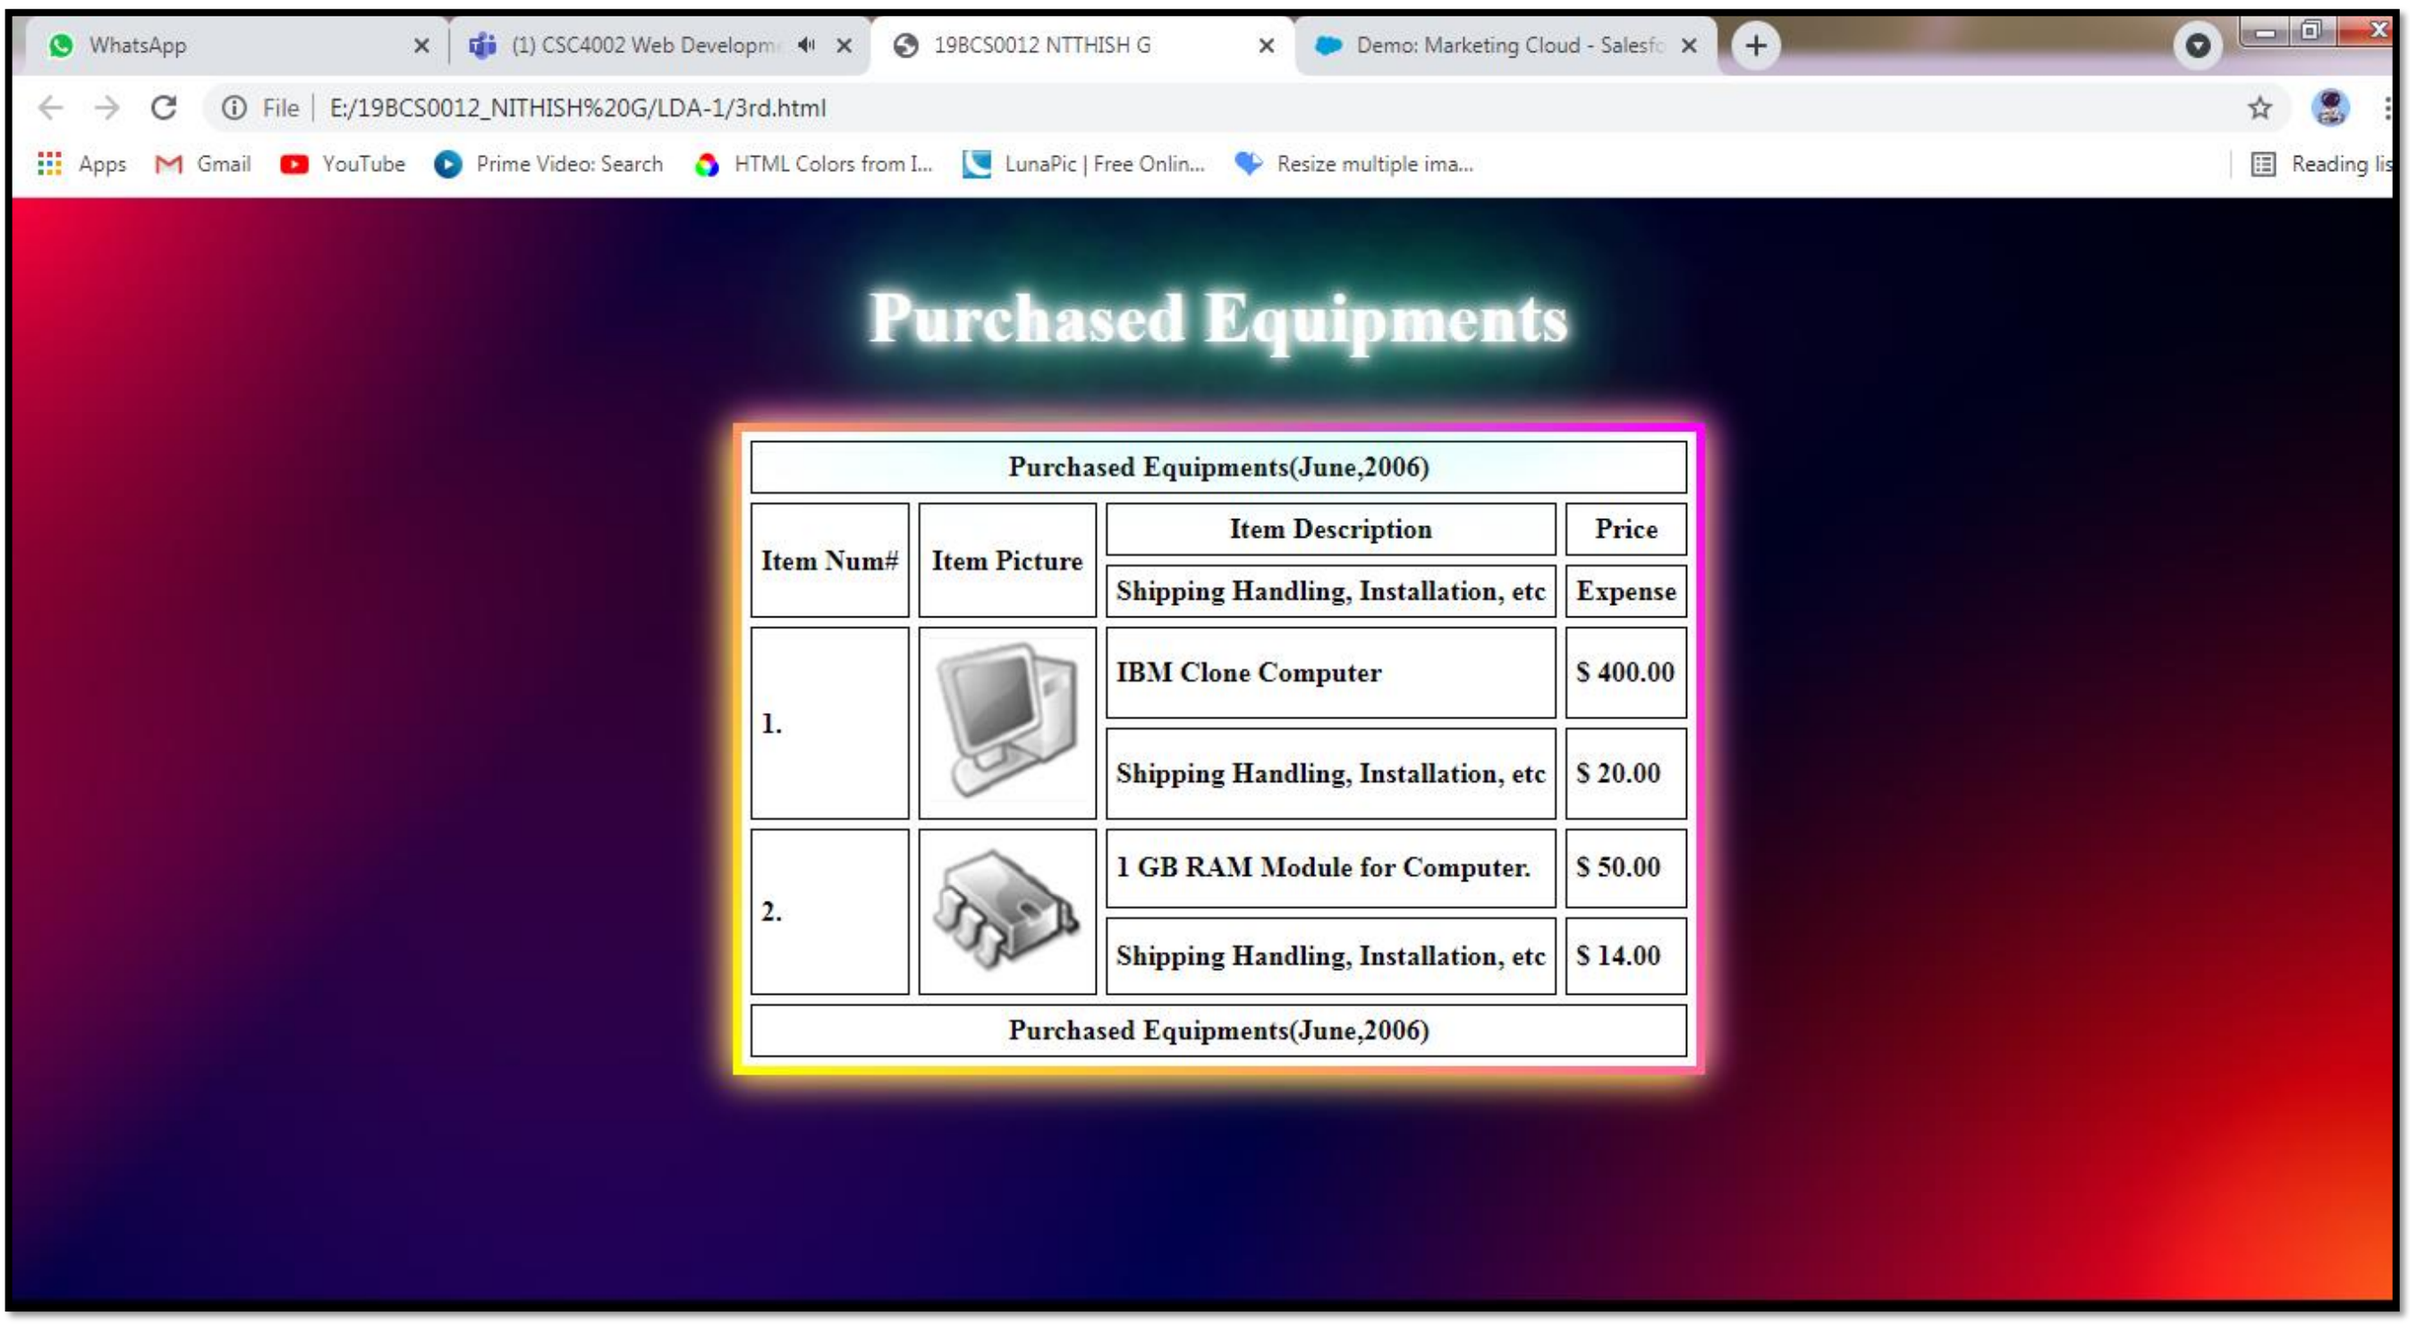
ii) Change the font properties (family, size, weight, or style) of at least two elements. Some standard fonts: Arial, Arial Black, Verdana, Trebuchet MS, Georgia, Tahoma, Courier

New, Times New Roman

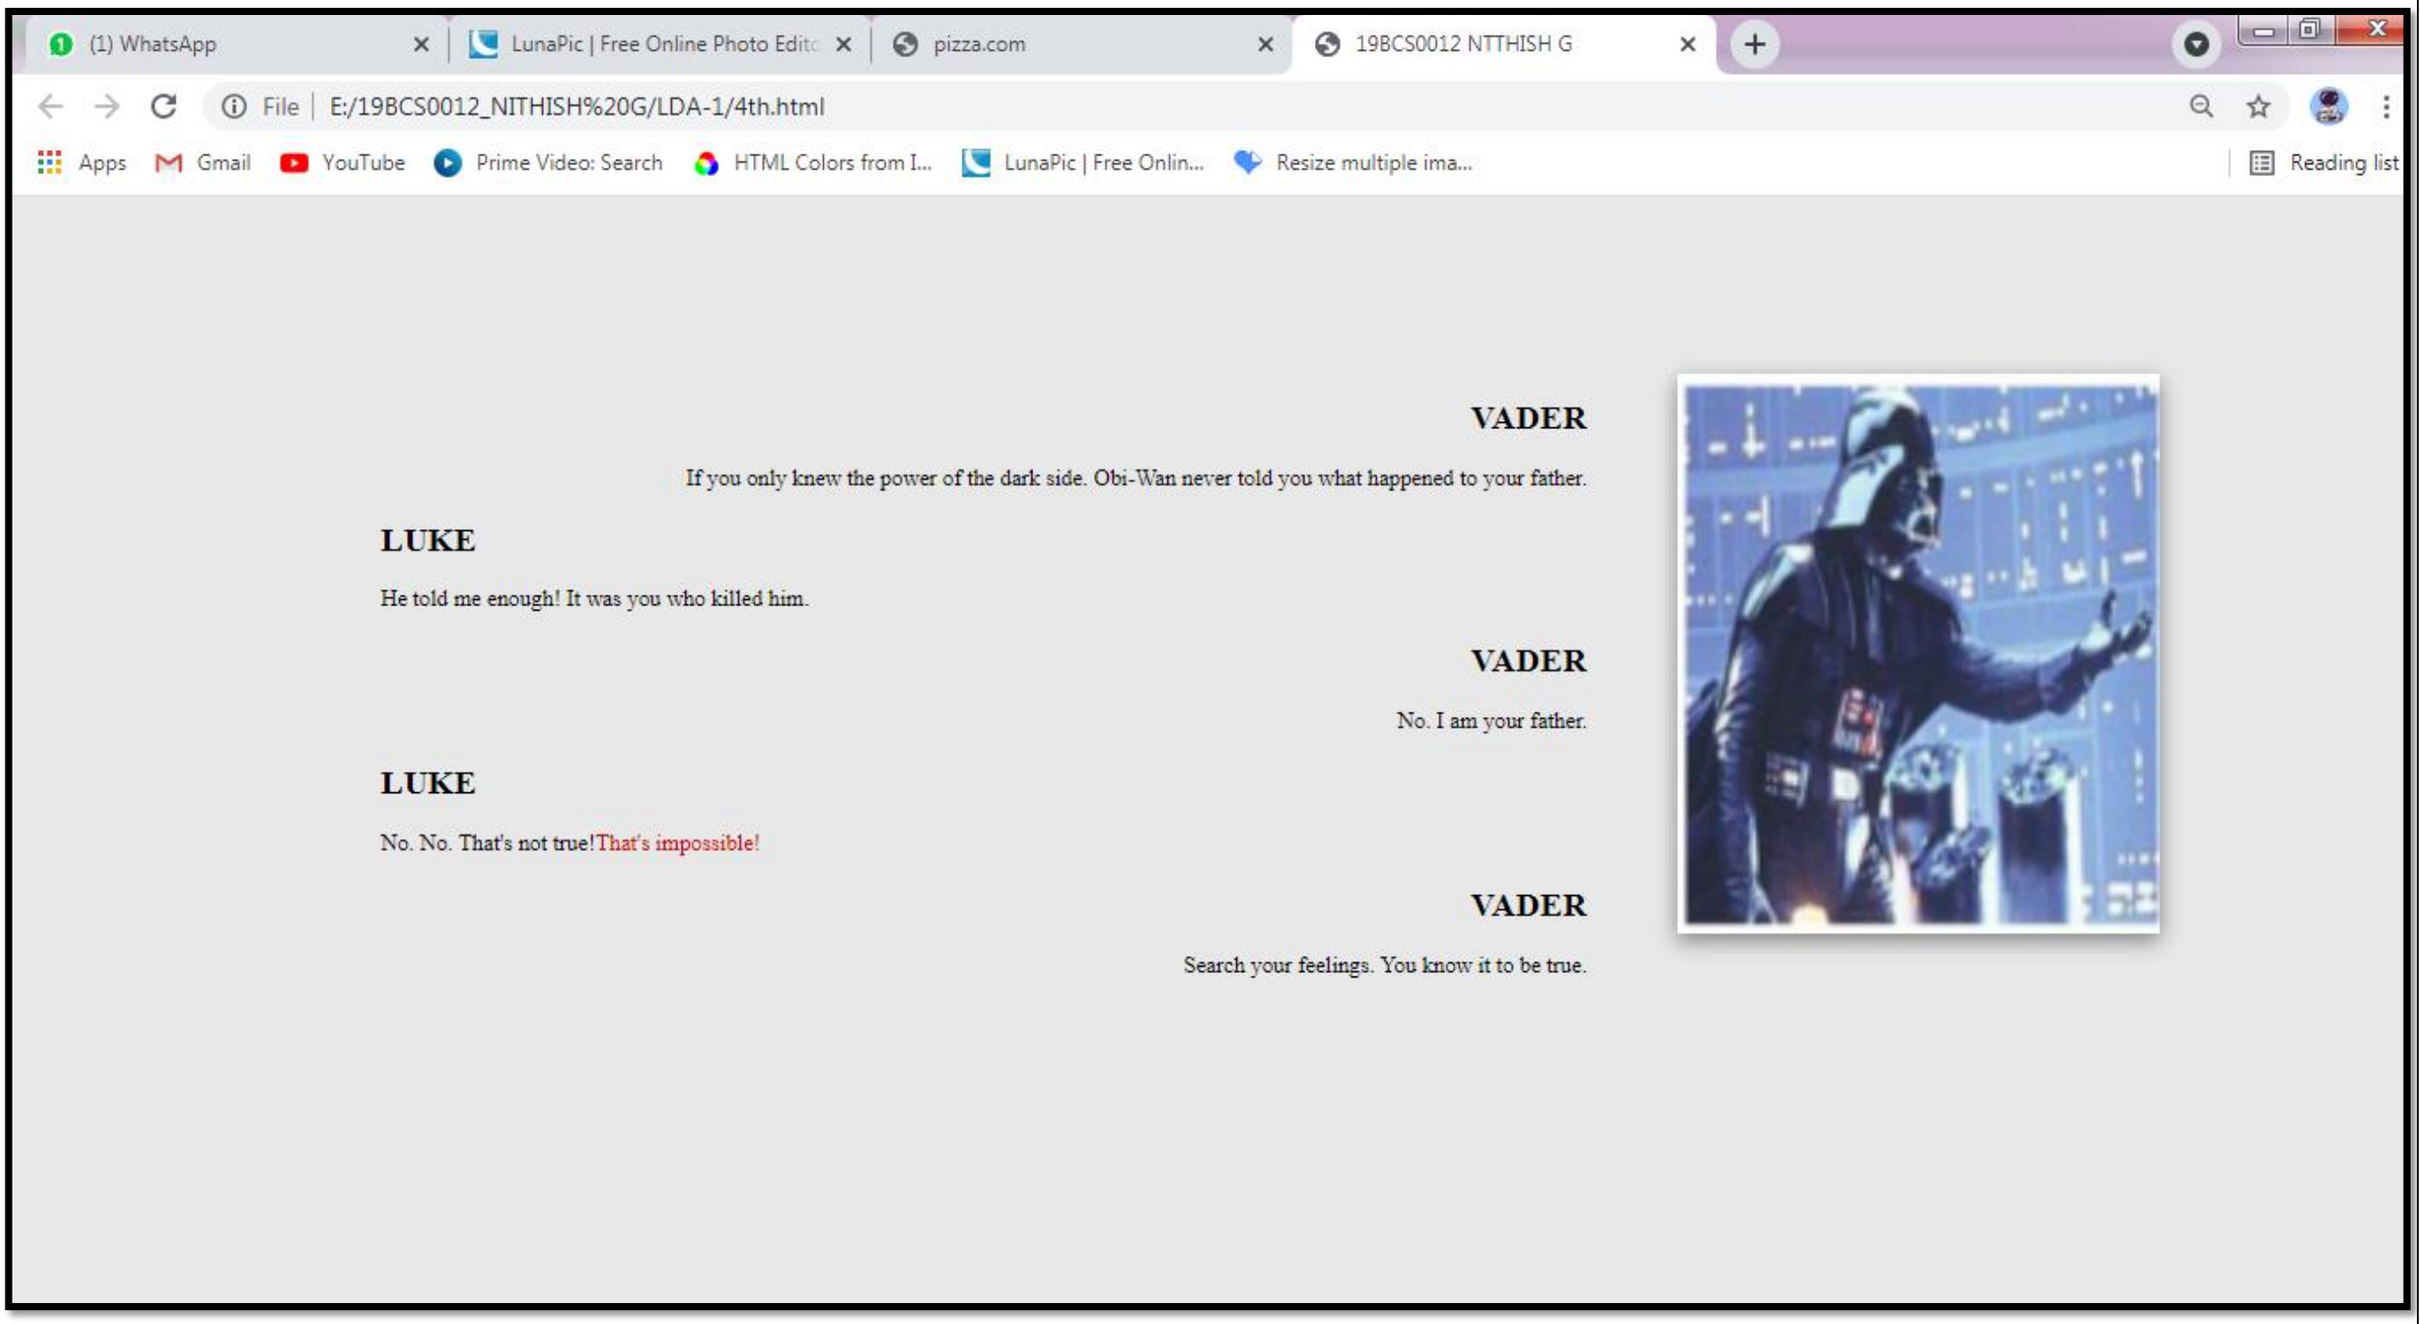
iii) Change the background color, text alignment and borders



3. Design a given table using HTML and CSS



4. Write the HTML and CSS code necessary to recreate the following appearance onscreen, between but not including the thick black lines. (No manual line breaks have been inserted into the text.) Assume that the code you're writing will be placed inside the body of the page.



5. Think that you are the owner of a company named 'XYZ'. Your company has an opening Pizza Shop 2.0. Make an advertisement using HTML5 and CSS. Make the website more attractive with following layout. You must add semantic tags <header>,<nav>, <main> <article><section> and <footer>

XYZ Pizza shop 2.0 Pizza Corporate Facts
Overview
XYZ Pizza shop 2.0 is the largest pizza restaurant chain in the world based on global retail sales, with more than 18,000 stores in over 90 markets. Founded in 1960, our roots are in convenient pizza delivery, while a significant amount of our sales also come from carryout customers. Although we are a highly-recognized global brand, we focus on serving the local neighborhoods in which we live and do business through our large network of franchise owners and Company-owned stores. On average, we sell more than 3 million pizzas each day throughout our global system. Our business model is straightforward: we handcraft and serve quality food at a competitive price, with easy ordering access and efficient service which are aided by our technology innovations. Our dough is generally made fresh and distributed to stores around the world by us and our franchisees. XYZ Pizza shop 2.0 generates revenues and earnings by charging royalties to its franchisees. Royalties are ongoing percent-of-sales fees for use of the XYZ Pizza shop 2.0 brand marks. The Company also generates revenues and earnings by selling food, equipment and supplies to franchisees primarily in the U.S. and Canada, and by operating a number of our own stores. Franchisees profit by selling pizza and other complementary items to their local customers. In our international markets, we generally grant geographical rights to the XYZ Pizza shop 2.0 Pizza® brand to master franchisees. These master franchisees also profit by running pizza stores, and often by sub-franchising and selling ingredients and equipment to those sub-franchisees. Everyone in the system can benefit, including the end consumer, who can feed their family XYZ Pizza shop 2.0 menu items conveniently and economically. we handcraft and serve quality food at a competitive price, with easy ordering access and efficient service which are aided by our technology innovations. Our dough is generally made fresh and distributed to stores around the world by us and our franchisees. XYZ Pizza shop 2.0 generates revenues and earnings by

<h1> XYZ Pizza shop 2.0 Pizza Corporate Facts</h1>
<b><u><h2>Overview</h2></u> </b>

<article >
XYZ Pizza shop 2.0 is the largest pizza restaurant chain in the world based on global retail sales, with more than 18,000 stores in over 90 markets. Founded in 1960, our roots are in convenient pizza delivery, while a significant amount of our sales also come from carryout customers. Although we are a highly-recognized global brand, we focus on serving the local neighborhoods in which we live and do business through our large network of franchise owners and Company-owned stores. On average, we sell more than 3 million pizzas each day throughout our global system.
```

Our business model is straightforward: we handcraft and serve quality food at a competitive price, with easy ordering access and efficient service which are aided by our technology innovations. Our dough is generally made fresh and distributed to stores around the world by us and our franchisees.

XYZ Pizza shop 2.0 generates revenues and earnings by charging royalties to its franchisees. Royalties are ongoing percent-of-sales fees for use of the XYZ Pizza shop 2.0 brand marks. The Company also generates revenues and earnings by selling food, equipment and supplies to franchisees primarily in the U.S. and Canada, and by operating a number of our own stores. Franchisees profit by selling pizza and other complementary items to their local customers. In our international markets, we generally grant geographical rights to the XYZ Pizza shop 2.0 Pizza® brand to master franchisees. These master franchisees also profit by running pizza stores, and often by sub-franchising and selling ingredients and equipment to those sub-franchisees. Everyone in the system can benefit, including the end consumer, who can feed their family XYZ Pizza shop 2.0 menu items conveniently and economically.

          <h2> web development</h2>
          <p>Web development is the work involved in developing a Web site
          for the Internet (World Wide Web) or an intranet (a private network).
          Among Web professionals,"Web development" usually refers to the main non-design aspects
          of building Web sites: writing markup and coding.</p>
       </div>

   <h3>What is markup language with example?</h3>

    <p style="text-transform: capitalize; position: absolute; width: 30%; height: 12%; top:60%;left:45%;border: 5px dashed #69FF1E; border-top: 5px dotted #69FF1E;  padding: 8px; ">
       A computer language that consists of
       easily understood keywords, names, or tags
        that help format the overall view of a page
         and the data it contains.
         Some examples of a markup language are BBC, HTML, SGML, and XML.</p>
