**NITHISH G**

**19BCS0012**

**MYSELF ONLY**

**Under the Guidance of**

**Dr.Mareeswari V**

**VIT®**  
**Vellore Institute of Technology**  
(Deemed to be University under section 3 of UGC Act, 1956)

**School of Information Technology & Engineering**

**December 2021**

## **DECLARATION BY THE CANDIDATE**

I here by declare that the project report entitled "**FOOD ORDERING SYSTEM**" submitted by me to School of Information Technology & Engineering, Vellore Institute of Technology University, Vellore in partial fulfillment of the requirement for the award of the degree of **B.Sc (Computer Science)** is a record of bonafide mini project work carried out by me under the guidance of **Dr.Mareeswari V.** I further declare that the work reported in this mini project has not been submitted and will not be submitted, either in part or in full, for the award of any other degree or diploma in this institute or any other institute or university.

Place: Vellore  
Date: 10/12/2021

Signature of the Candidate  
NITHISH G

### **ABSTRACT**

Online Food Ordering System is a part of e-commerce. E-commerce or business through netmeans distributing, buying, selling, marketing, and servicing of products or services over electronicsystems such as the Internet and other computerO

nets. Thus if we own a restaurant we need to uploadmenu online to attract potential customers.The online food ordering system gives restaurants the ability to increase sales and expand their business by giving customers thefacility to order food online. With an online restaurant menu ordering system,customers can place orders online 24 \*7. Thus it is asimple, fast and convenient food ordering system givingan edge over the competition at an affordable price.Internet has seen a tremendous growth in terms ofcoverage and awareness. So giving the business an online presence has becomevery crucial and important.With [Online Ordering System], we can set up werestaurant menu online and the customers can easilyplace order with a simple mouse click. Also with a foodmenu online we can easily track the orders, maintaincustomer's database and improve the food deliveryservice. We can receive order through e-mails/ fax ordirectly view on internet.

### **INTRODUCTION:**

#### **DESCRIPTION OF YOUR PROJECT WORK**

- Timely taste is food ordering system is referred to as a set of detail methods that is being used in handling the ordering process. Food ordering can be computerized or done manually. Thos helps the customer to order their food themselves which is knownas the customer self-ordering system.The customer self-ordering system can be defined as a computerized system that is being used by customers to place their own orders in the restaurant and allow theorders to be tracked, in order to prepare and deliver the food to the computers
- This system will allow hotels and restaurants to increase scope of business by reducing the labor cost involved. The system also allows to quickly and easily manage an online menu which customers can browse and use to place orders with just few clicks. Restaurant employees then use these orders through an easy to navigate graphical interface for efficient processing

#### **1.2.SYSTEM SPECIFICATIONS (HARDWARE& SOFTWARE)**

Operating system- Windows 10 is used as the operating system as it is stable and supports more features and is more user friendly

Database MYSQL-MYSQL is used as database as it easy to maintain and retrieve records by simple queries which are in English language which are easy to understand and easy to write.

Development tools and Programming language- HTML is used to write the whole code and develop webpages with css, java script for styling work for sever side scripting.

#### 2.1.4.2 HARDWARE REQUIREMENTS

Intel core i5 2nd generation is used as a processor because it is fast than other processors and provide reliable and stable and we can run our pc for longtime. By using this processor we can keep on developing our project without any worries. Ram 4 gb is used as it will provide fast reading and writing capabilities and will in turn support in processing.

## 2.ANALYSIS

### 2.1. Literature Survey

Industries who lag behind online ordering systems will be left behind from the restaurants who have stepped up. By implementing new technology, it not only benefits customers life but also confirm the business to stand tall. So, here are some of the true benefits of online ordering system:

- With busy lifestyles, most of us lean towards convenience. When the dinners can be ordered from their favorite restaurants faster, easier and at their convenience, they incline more towards the system because their needs are met.
- Online food ordering allows the customers to place their order virtually, anytime from anywhere. This ultimately helps to save the time of the customers which can be consumed certainly on travelling.
- It reduces the labor work. By ordering over an application, it can eventually reduce the staff work because it is replaced by the machine.
- While the order is being taken over phones or in person there might be some misunderstandings and orders might not be that accurate. But by placing it online, it can be more precise and customers have the controls, they can customize the orders again and again and make their order crystal clear.

## DETAILED DESIGN

The system is designed to accept several input details efficiently through input forms and user clicks. The data captured through the user keystrokes and clicks are received by specific modules on the system and relayed to the back-end of the system for processing.

## DATABASE SPECIFICATION.

The database system used to implement the back-end of the system is MySQL. Access to the system was made possible by a graphical interface (phpMyAdmin) with an ISAM engine. The database name is krispy and the structure of the datatables in the database are as follows:

The screenshot shows the phpMyAdmin interface for the 'timely\_taste' database. The 'users' table is selected. The table structure is as follows:

#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra	Action
1	id	int(11)	utf8mb4_general_ci		No	None		AUTO_INCREMENT	<a href="#">Change</a> <a href="#">Drop</a> <a href="#">More</a>
2	phno	varchar(10)	utf8mb4_general_ci		No	None			<a href="#">Change</a> <a href="#">Drop</a> <a href="#">More</a>
3	Name	varchar(50)	utf8mb4_general_ci		No	None			<a href="#">Change</a> <a href="#">Drop</a> <a href="#">More</a>
4	email	varchar(50)	utf8mb4_general_ci		No	None			<a href="#">Change</a> <a href="#">Drop</a> <a href="#">More</a>
5	password	varchar(30)	utf8mb4_general_ci		No	None			<a href="#">Change</a> <a href="#">Drop</a> <a href="#">More</a>

Below the table structure, there is an 'Indexes' section with one index defined:

Action	Keyname	Type	Unique	Packed	Column	Cardinality	Collation	Null	Comment
<a href="#">Edit</a> <a href="#">Rename</a> <a href="#">Drop</a>	PRIMARY	BTREE	Yes	No	id	5	A	No	

Showing rows 0 - 4 (5 total, Query took 0.0020 seconds.)

```

```
    <details>
        <summary>What is Timely Taste Customer Care Number?</summary>
```

<p>We value our customer's time and hence moved away from a single customer care number to a comprehensive chat-based support system for quick and easy resolution. You no longer have to go through the maze of an IVRS call support. Just search for your issue in the help section on this page and initiate a chat with us. A customer care executive will be assigned to you shortly. You can also email us your issue on support@timelytaste.in

Note: We value your privacy and your information is safe with us. Please do not reveal any personal information, bank account number, OTP etc. to another person. A Timely Taste representative will never ask you for these details. Please do not reveal these details to fraudsters and imposters claiming to be calling on our behalf. Be vigilant and do not entertain phishing calls or emails.

</p>

</details>

<details>

<summary>Can I edit my order?</summary>

<p>Your order can be edited before it reaches the restaurant. You could contact customer support team via chat or call to do so. Once order is placed and restaurant starts preparing your food, you may not edit its contents</p>

</details>

<details>

<summary>I want to cancel my order</summary>

<p>We will do our best to accommodate your request if the order is not placed to the restaurant (Customer service number: 080-67466729). Please note that we will have a right to charge a cancellation fee up to full order value to compensate our restaurant and delivery partners if your order has been confirmed.</p>

</details>

<details><summary>Will Timely Taste be accountable for quality/quantity?</summary>

<p>We have no minimum order value and you can order for any amount. </p>

</details>

<details>

<summary>Do you charge for delivery?</summary>

<p>Delivery fee varies from city to city and is applicable if order value is below a certain amount. Additionally, certain restaurants might have fixed delivery fees. Delivery fee (if any) is specified on the 'Review Order' page.</p>

</details>

<details>
  <summary>Cancellations and Refunds</summary>
  <p>a) As a general rule you shall not be entitled to cancel your order once placed. You may choose to cancel your order only within one-minute of the order being placed by you. However, subject to your previous cancellation history, Timely Taste reserves the right to deny any refund to you pursuant to a cancellation initiated by you even if the same is within one-minute. b)If you cancel your order after one minute of placing it, Timely Taste shall have a right to charge you 100% of the order amount as the cancellation fee , with a right to either not to refund the order value in case your order is prepaid or recover from your subsequent order in case your order is postpaid, to compensate our restaurant/merchants and delivery partners. c)Timely Taste reserves the right to charge you cancellation fee for the orders constrained to be cancelled by Timely Taste for reasons not attributable to Timely Taste, including but not limited to: i)in the event if the address provided by you is either wrong or falls outside the delivery zone; ii) failure to contact you by phone or email at the time of delivering the order booking; iii) failure to deliver your order due to lack of information, direction or authorization from you at the time of delivery; or iv) unavailability of all the items ordered by you at the time of booking the order. However, in the unlikely event of an item on your order being unavailable, Timely Taste will contact you on the phone number provided to us at the time of placing the order and inform you of such unavailability. In such an event you will be entitled to cancel the entire order and shall be entitled to a refund to an amount upto 100% of the order value. d)In case of cancellations for the reasons attributable to Timely Taste or the restaurant partner or delivery partners, Timely Taste shall not charge you any cancellation fee.</p>
</details>

<details><summary>How much commission will I be charged by Timely Taste??</summary>
  <p>The commission charges vary for different cities. You will be able to see the commission applicable for you once the preliminary onboarding details have been filled.</p>

The screenshot shows a web browser window with multiple tabs open. The active tab is titled 'Cart > Timely Taste'. The page content is a payment method selection form. At the top right, there are links for 'Home', 'Offers', 'Help', 'Profile', and 'Cart'. On the right side, there's a summary box showing 'Item Total' as ₹735, 'Delivery Fee | 10.3 kms' as ₹20, and 'TO PAY' as ₹791.75. Below this is a section titled 'Review your order and address details to avoid cancellations' with a note about cancellation fees. The main form area has a heading 'Choose payment method' and a sub-section 'Add new card'. It lists 'WE ACCEPT' and shows a sample card number '4234235324238' with expiration date '09/1' and CVV 'CVV'. There are also fields for 'Name on card' containing 'NITHISH'. A checkbox for saving the card for future use is present, and a large green 'PAY' button is at the bottom. On the left, a sidebar lists payment methods: 'Credit/Debit Cards' (selected), 'UPI', 'Netbanking', and 'Food Cards'. The browser's taskbar at the bottom shows various application icons.

This screenshot is nearly identical to the one above, showing the same payment method selection page for 'TIMELY TASTE'. The layout, summary box, and sidebar are identical. The main difference is in the card input fields: the expiration date is now '09/21' and the name on card is now 'NITHISH'. The rest of the interface and taskbar remain the same.

ONCE ALL INPUT ENTERED CORRECTLY AND CLICKED PAY BUTTON IT PROCEED PAYMENT ONCE THE PAYMENT FINISHED I CANT DONE ONCE AGAIN

ONCE REENTERED CLICK UPDATE

The screenshot shows a web browser window with multiple tabs open. The active tab is titled 'Profile > Timely Taste' and displays a profile editing interface for a user named 'Nithish.G'. The page includes fields for Name, Phone number, Email id, and Password, each with a 'Change' link. On the left, a sidebar lists options like Profile, Address, Favourites, Orders, and Logout. The browser's address bar shows 'localhost:8080/project/Profile/profile.html'. The system tray at the bottom indicates the date and time as 12/11/2021 1:48 AM.

ONCE AFTER CLICKING UPDATE IT REWIRRTE AND REFLECTS ON APPROPRIATE PLACES

The screenshot shows the same web browser window after updating the profile. The user's name is now listed as 'Nithish.G' at the top, along with their phone number and email. The profile edit page shows the updated information: Name (Nithish.G), Phone number (8908908909), and Email id (nithishg.2019@gmail.com). The 'Change' links are still present. The sidebar and browser status remain the same as in the previous screenshot.

USER CAN CHECK THEI ADDRESS DETAILS ON PROFILE

Screenshot of the 'Manage Address' section in the 'Profile' page.

**FAQS**

### FAQs

**▼ What is Timely Taste Customer Care Number?**

We value our customer's time and hence moved away from a single customer care number to a comprehensive chat-based support system for quick and easy resolution. You no longer have to go through the maze of an IVRS call support. Just search for your issue in the help section on this page and initiate a chat with us. A customer care executive will be assigned to you shortly. You can also email us your issue on support@timelytaste.in Note: We value your privacy and your information is safe with us. Please do not reveal any personal information, bank account number, OTP etc. to another person. A Timely Taste representative will never ask you for these details. Please do not reveal these details to fraudsters and imposters claiming to be calling on our behalf. Be vigilant and do not entertain phishing calls or emails.

**► Can I edit my order?**

## FOOTER

The screenshot shows a web browser window with multiple tabs open. The active tab displays a website for 'TIMELY TASTE' with the sub-path '/project/Home.html?#whatsnew'. The page features a logo of a delivery person on a scooter holding a tray, with the text 'Your tasty food knock at the door!'. Navigation links include 'Home', 'Offers', 'Help', 'Profile', and 'Cart'. A sidebar on the left lists 'Company' (About us, Team, Careers, Swiggy Blog, Bug Bounty, Swiggy Super, Swiggy Corporate, Swiggy Instamart), 'CONTACT' (Help & Support, Partner with us, Ride with us), and 'LEGAL' (Terms & Conditions, Refund & Cancellation, Privacy Policy, Cookie Policy, Offer Terms, Phishing & Fraud). To the right are download links for the App Store and Google Play. The status bar at the bottom shows system icons and the time '1:17 AM 12/11/2021'.

## Conclusion

With online ordering on board you will enrichen your customer experience by making the process of 'placing orders' a lot easier. It will show that you value your customer's time. Online ordering will guarantee a 'level up' to your web presence. And a good web presence will make you stand out in the search engine rankings and bring more customers to you.

Online ordering will boost your productivity by eliminating the inefficient process of taking orders. It will help you to plan and implement an adaptive marketing campaign.
