S.No	**Question** **(Refererence:** **https://www.w3schools.com/html/html_images_imagemap.asp)**	**Course Outcome (CO)**
1	Use a HTML5, CSS and JavaScript to design a web page to show the specialities of Tamilnadu. You must use **Image map** concept. You can select any three different districts with different shapes like circle, rectangle and polygon. While clicking the particular area, then name of the district and speciality should be displayed. Eg. If Thanjavur is famous for the 'Thalaiyattu Bommai' dolls, Thirunelveli is known for its Halwa. Kodaikanal – Apples, Karaikudi – Chettinad Cuisine, Madurai – Jasmine, Kanchipuram – Silk and etc..	4
